PROFESSIONAL SUMMARY

Frontend Developer with 4 years of experience building responsive and scalable web applications using React JS, JavaScript (ES6+), HTML5, and CSS3. Experienced in reusable UI development, API integration, state management, performance optimization, unit testing using Jest and React Testing Library, code reviews, and Agile delivery. Improved UI performance by up to 30% through optimized rendering and state management.

Demonstrated ability to rapidly learn new technologies by independently learning Oracle Redwood UI and delivering production-grade features within project timelines, earning the Infosys Insta Award for ownership and execution excellence. Passionate about creating intuitive user experiences and exploring modern frontend and AI-assisted development technologies.

TECHNICAL SKILLS

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS, Material UI (MUI), Responsive Web Design, Accessibility (WCAG), Redwood UI, Redux Toolkit
Tools	Git, Visual Studio Code, GitHub Copilot, Browser DevTools, Microsoft Copilot Studio, Oracle Visual Builder Studio (VBS)
Testing	Jest, React Testing Library (Unit Testing & Component Testing)
Methodologies	Agile (Scrum/Kanban), Sprint Planning, Retrospectives, Code Reviews
Architecture	Component-Driven Design, Reusable Component Libraries, Microfrontend Architecture (Conceptual)

WORK EXPERIENCE

Associate Consultant, Infosys Ltd.	Jan 2026 – Present
- Participated in Microsoft Copilot Innovation Jam, developing a knowledge agent using Microsoft Copilot Studio and prompt engineering to support automated information retrieval and improve team productivity. - Customized and optimized CSS for SharePoint applications using parent-child node hierarchy patterns, improving UI consistency and reducing style override conflicts by 40%. - Conducted GitHub Copilot integration training for junior developers, demonstrating AI-assisted coding workflows that increased development velocity by 25% and improved code quality. - Mentored team members on project migration best practices across UAT, Pre-Production, and Production environments, supporting smooth and reliable environment transitions.	
Senior Systems Engineer, Infosys Ltd.	Oct 2024 – Dec 2025
- Developed and maintained responsive, cloud-integrated web interfaces using React JS and JavaScript (ES6+), focusing scalable and modular UI architecture. - Integrated RESTful backend APIs with secure authentication patterns, and Optimized data workflows using custom hooks and React patterns, reducing re-renders by 35% and increasing component efficiency. - Wrote unit tests using Jest and React Testing Library for critical UI components, improving application reliability and reducing post-release defects.	

- Contributed to UI migration toward Oracle Redwood standards in Visual Builder Studio integrated with Oracle CX.
- Conducted code reviews that reduced post-release defects by 15% and delivered 100% of sprint commitments on schedule across Agile development cycles.

Systems Engineer, Infosys Ltd.

Jul 2022 – Sep 2024

- Built enterprise web UIs using React JS and React Hooks, improving UI response time by 20%.
- Implemented debounced search and pagination using custom React Hooks to optimize API usage and frontend performance.
- Built dashboards and CRUD workflows with API integration, form validation, and responsive user experiences.
- Authored unit tests using Jest and React Testing Library, ensuring component reliability and catching regressions early.

PROJECT HIGHLIGHTS

Property Management – Frontend React Development

- Developed and enhanced property management UI modules using React JS and API integration.
- Built reusable UI components and dashboards with interactive visualizations, contributing to reliable releases and improved user experience.

Agile Retrospective Tool – React-based SPA

- Built a React-based tool enabling Scrum teams to streamline retrospectives through interactive forms and state management.
- Delivered all features within sprint timelines with 100% functional accuracy.

Training Portal – Responsive Frontend UI

- Implemented responsive UI layouts using HTML5, CSS3, JavaScript, and React JS, while contributing to UI/UX improvements.
- Managed source control using Git and optimized frontend workflows for performance and usability.

ATM Service & Maintenance Workflow Application – Redwood UI Development

- Customized CX extensions and layouts in Visual Builder Studio following Oracle Redwood UI standards.
- Authored TDDs and deployment trackers and contributed to development estimation for multiple Redwood UI entities.

PERSONAL PROJECTS

FitMap – Personalized Fitness Plan Generator *React 19 · Vite 8 · Tailwind CSS v4 · Lucide React · html2pdf.js*

- Built a fully client-side 7-day fitness plan generator using React 19 and Vite 8, dynamically adapting exercises based on user profile, available equipment, and fitness goals.
- Architected a 3-step onboarding flow and dynamic workout generation engine using centralized React state management and a feature-based component structure.

- Implemented real-time form validation, dynamic protein target calculation, client-side PDF export using html2pdf.js, and interactive cursor-based animations.
- Deployed a responsive frontend experience to GitHub Pages with no backend dependency.
- Project Demo: Check the live demo here

Developer Dashboard – React + Data Visualization *React JS · Redux Toolkit · GitHub Pages*

- Built a responsive React dashboard with reusable UI components, interactive charts, and data visualizations using Recharts.
- Implemented Redux Toolkit for state management and optimized rendering for improved frontend performance.
- Used mock data to simulate real-world metrics and designed a backend-ready component architecture.
- Deployed the application using GitHub Pages with a responsive and accessible frontend experience.
- Project Demo: Check the live demo here

EDUCATION

B.Tech in Electronics and Communication Engineering Andhra Loyola Institute of Engineering and Technology, India	2018 – 2022 CGPA: 8.41
Intermediate (MPC) Sri Chaitanya Junior College	2016 – 2018 98.4%
Secondary School Certificate (SSC) Krishnaveni Talent School	2016 CGPA: 8.7

CERTIFICATIONS

- AWS Certified AI Practitioner – 2026
- Microsoft GitHub Copilot (GH-300) – 2025
- Microsoft GitHub Foundations (GH-100) – 2025
- HackerRank – React and Frontend Developer

RECOGNITIONS

- Received the Infosys Insta Award (Dec 2025) for independently learning Oracle Redwood UI and delivering production-grade features within sprint timelines.
- Honored with the RISE Gracias – Rising Star Appreciation (Nov 2025) for exceptional energy, dedication, and high-quality contributions.
